

Charrette Packet Document Guide

Charrette Participants,

In your charrette packet document you will find the following documents for your review.

Pages 1-2: ***List of Charrette Participants***

Pages 3-5: ***Fort Worden Stakeholder Survey***

This document provides a very brief summary of the two strategies being implemented at Fort Worden and identifies the activities and target markets for each of the strategies. It also includes a survey. The survey is targeted toward current tenant organizations at the Fort. If you are a community member or regional representative, please feel free to answer any of the questions that are of interest to you, especially if you would like to consider using any of the Fort facilities in the future. Please note the quick turnaround time. Ideally, we would receive any information back by the end of the week. If it takes longer, don't worry, it will still be useful for the consultant team to get your feedback on the survey questions.

Page 6: ***Aerial of Fort Worden***

The aerial shows the boundaries of the park and the 90-acre campus area highlighted in yellow. This is the master lease area operated and managed by the Fort Worden PDA and will be the focus of the charrette.

Page 7: ***Fort Worden Conference Center***

This map shows all the buildings that are contained in the master lease area and that make up the Fort Worden Conference Center. Partner organizations and building numbers are identified.

Pages 8-9: ***Lifelong Learning Center Concept to Reality***

This document sets out the vision, mission and values of the Lifelong Learning Center (LLLC) that was adopted by the WA State Parks and Recreation Commission in 2006. Our task at the Charrette is how do we further implement the vision of the LLC and what concrete steps do we take to recruit/expand programs and uses during the shoulder season? What is the best mix of partners? How do we prioritize facility improvements?

Pages 10-15: ***Universe of Ideas***

A list of ideas were generated during the 2006 planning process. Please review this list and identify which ideas you find viable and worthy to pursue. Are there other ideas that may be viable today?

Page 16: ***Fort Worden Fact Sheet***

The fact sheet provides a brief historical overview and other useful facts.

Page 17: ***Fort Worden Planning Timeline***

The timeline summarizes the lengthy planning process to date. There is a ton of background information and plan documents that have been prepared to guide the establishment and development of the Lifelong Learning Center. Our goal at the charrette is to build upon these plans and identify some prioritized set of actions that the PDA can take over the next several years.

Page 18: ***Aerial Photo of the Fort***

Today, only 73 buildings remain in the Campus area of the Fort.

Please do not hesitate to call or email me with any questions that you may have.

See you at the Charrette!
