Dave Robinson
Executive Director
Fort Worden
200 Battery Way
Port Townsend, WA 98368

Dear Dave Robinson:

As members of the board for the Port Townsend Charter School we want to express our interest in the becoming a partner of Fort Worden. We believe that the vision of our school to provide individualized, inspiring education and the vision of the Fort Worden Public Development Authority in conjunction with Washington State Parks to provide a lifelong learning center that inspires, educates and creates personal transformation will make for a perfect partnership.

We will be providing for K-12 learners. Our educational format will be to engage in learning opportunities that are multi-age as well as multi-disciplined, thus we will need a space that is flexible to allow for in-class learning and provides opportunities for utilizing outdoor space. We are encouraged by the opportunities that other partners of Fort Worden may offer to our learners as well as their families.

We are looking for a place that would serve up to 200 students with area for staff and faculty/teachers. We are interested in the structure known as "The School House." The current plan is to open for classes in the fall of 2016 (August/September), with a lease starting in May 2016.

We look forward to your response regarding our inquiry.

Sincerely,

Debbie M.A. Sonandre
