### • FEATURED FARM •

#### Onatrue Farm

Located in Port Townsend, WA, the farm is a member of the local CSA and participates in Port Townsend's Farmer's Market. After many years of working to move away from proprietary or patented hybrid seed, in 2016 farmer Max achieved 100% open pollinated, open source seed to grow great tasting vegetables!

What this means for our taste buds, is an abundance of diversity and an opportunity to experience new flavors, and rediscover old ones.
