Subject: Fort Worden PDA and Proposed Revisions

PDA Board,

Please look beyond the recent lack of proper management and further review the proposed restructuring. Teaming with another organization may indeed be an excellent idea. BUT, the terms and conditions, as proposed, deny the Port Townsend / Jefferson County communities adequate inputs, ability to hold the new organization accountable, and a significant lack of financial sharing with the PDA for future learning programs.

Please do not proceed at this time. Significant workshops with the local public / citizens should be held for inputs and working sessions on key topics. I would be pleased to be able to participate.

Thank you.

Paul Eisenhardt
Port Townsend
